---

## Objective

To utilize my determination and hard working skills to obtain acceptance into a four year university to study engineering.

---

## Summary

1. I am a friendly, outgoing student who is dedicated to working hard. I love to be surrounded by others and to use creativity to solve problems around me. I am willing to put time and effort into studying and I do not like to give up.

---

## Leadership

I am an officer of my high school choir. My job is to communicate with my teacher about the attendance of members and to make sure they know their music. I am also someone they can talk to if they have concerns within the program.

---

I am a leader of my club volleyball team. I bring my team together by getting everyone energetic and excited before games. I can make my teammates laugh and I am always there to pick them up.
